Cultura di progetto

Design Culture

I prodotti Tonalite sono ideati e sviluppati per essere l'elemento con cui dare forma alla creatività. Studiati sulla base di un'ampia gamma cromatica e con una varietà complementare e versatile di forme e pezzi speciali, i prodotti Tonalite esaltano una cultura progettuale dove la materia è strumento per una libera realizzazione degli spazi. L'elemento ceramico è dunque il mezzo attraverso cui progettista e progetto possano esprimersi oltre i limiti di un'idea, creando originalità.

Tonalite products are conceived and developed to give concrete form to creativity. Designed on the basis of a vast range of colours with a complementary and versatile variety of different shapes and special pieces, Tonalite products underline a concept of design in which the material is seen as instrumental to free creation of spaces, and ceramic becomes a medium through which the designer and the design are expressed beyond the limitations of the idea, encouraging originality.

L'evoluzione è la nostra parola d'ordine.

Una realtà che parte dalla passione artigianale, e conservandone il valore cresce come marchio solido nella rete vendita, con un occhio sempre attento alla ricerca tecnologica e al design più innovativo.

Tonalite S.p.A. è un'azienda specializzata nella produzione e commercializzazione di piastrelle di ceramica di alta qualità.

Fondata nel 1974, Tonalite propone pavimenti e rivestimenti per interni ed esterni declinati in una vasta gamma di formati e colori.

Evolution is our keyword.

A company that started out with a passion for preserving the value of craftsmanship and has grown into a well-established brand with its sales network, keeping up with the latest advances in technology and design.

Tonalite S.p.A. makes and sells quality ceramic tiles.

Founded in 1974, Tonalite produces indoor and outdoor floor and wall tiles in a vast range of sizes and colours.

Tradizione/
Traditions

Innovazione/
Innovation

Tonalite si è sempre contraddistinta per una continua ricerca mirata al miglioramento estetico della piastrella e al conseguimento di elevati standard tecnici e qualitativi, offrendo così ai consumatori più esigenti e ai professionisti la soluzione più consona ad ogni destinazione d'uso.

Tonalite has always stood out for its ongoing research aimed at improving tiles' aesthetic performance and achieving advanced technical and quality standards, offering the most demanding consumers and professionals the best solution for all applications.

Esperienza e affidabilità Experience and dependability

Esperienza/Experience

1974

Tonalite nasce da una passione familiare e ogni anno si rinnova sperimentando nuovi progetti e conservando l'artigianalità della produzione.

Tonalite grew out of one family's dedication, and is renewed year after year with new experiments and new designs while maintaining its traditional handcrafted production.

Presenza mondiale/
World-wide presence

47
paesi/
countries

Lo stile di Tonalite si riconosce e attraversa 4 continenti e 47 paesi per portare nel mondo passione e tradizione per la ceramica italiana.

The Tonalite style is recognised all over the world: we serve 47 countries on 4 continents, bringing the world all the passion and tradition of Italian ceramics.

Rete contatti/
Contact network

4000
clienti/
clients

Grazie al valore, al design dei nostri prodotti e alla nostra rete vendita, il numero di clienti cresce ogni anno e si arricchisce con nuove collaborazioni.

Our clientele and our partnerships are growing every year thanks to our products' value and design and the work of our sales network.

Gamma prodotti/
Product range

36
collezioni/
collections

Colori e forme si fondono per esaltare lo stile di ogni spazio e luogo.

La scelta di Tonalite rispecchia la scelta di autenticità e carattere.

Colours and shapes come together to underline the style of any place and time. Tonalite is a choice reflecting authenticity and character.

Varietà/Variety

33
formati/
sizes

Diversi formati caratterizzano le collezioni di Tonalite. Le forme riescono a dare risalto a stili e scelte di arredo.

Tonalite collections come in several different sizes. Shapes underline different decorating styles.

Forme/Shapes

13

La geometria è una delle passioni di Tonalite e tra le collezioni troverete tante forme da adattare alle vostre scelte di design.

Tonalite loves geometry, and the company's collections include plenty of different shapes to suit all kinds of designs.

Progetti realizzati

Case studies

Quando l'elemento ceramico è il mezzo attraverso cui progettista e progetto possano esprimersi oltre i limiti di un'idea, creando originalità.

When the ceramic element is the means by which designer and design express themselves beyond the limits of an idea and create originality.

Sistema T è una soluzione progettuale a 360°, studiata da Tonalite per offrire al progettista una combinazione completa e versatile di elementi ceramici integrati originati da un'unica struttura. 1 stile di prodotto, 4 collezioni, 11 colori declinati su 2 superfici per una totale e perfetta abbinabilità in cui l'unica variabile è la forma. Le collezioni di Sistema T infatti sono infatti realizzate per poter generare infinite soluzioni da pavimento e rivestimento sfruttando la combinabilità di materia, colori e superfici.

Sistema T is an all-round design solution developed by Tonalite to offer designers a complete, versatile combination of integrated ceramic elements originating out of a single structure. 1 style, 4 collections, 11 colours with 2 surfaces for total, perfect combinability, in which the only variable is shape. The System T collections are designed to generate an infinite range of floor and wall covering solutions drawing on different combinations of materials, colours and surfaces.

La serie "Stek" è prodotta in gres smaltato e appartiene al Gruppo BIII (norma UNI EN 14411) della normativa europea vigente. Inoltre le piastrelle rispondono ai requisiti imposti dal marchio CE.
"Stek" collection is made of glazed single-fired tiles and belongs to the BIII group (Rule EN 14411). Moreover these tiles fulfil the necessary qualifications requested by the CE brand.

Procedura per la posa/Procedure for the laying

Al fine di prevenire qualunque tipo di problema connesso alla natura dello smalto utilizzato per ottenere la caratteristica finitura "craquelé", la collezione Stek deve essere trattata come descritto qui di seguito:

- 1 . posare le piastrelle;
- 2 . utilizzare esclusivamente un sigillante cementizio bianco;
- 3 . pulire accuratamente le piastrelle con un prodotto non acido (ad esempio Fila Cleaner);
- 4 . una volta che le piastrelle sono pulite ed asciutte stendere su di esse uno strato uniforme di prodotto protettivo (ad esempio Fila MP90).

In order to avoid any problem connected with the nature of the glaze used to obtain the typical "craquelé" finish, Stek collection must be treated as follows:

- 1 . lay down the tiles;
- 2 . apply only white cementitious grout;
- 3 . clean well the tiles with a non-acid product (such as Fila Cleaner);
- 4 . once tiles are clean and dry lay an uniform coat of protector (such as Fila MP90).

D

Geomat è prodotta per estrusione in modo totalmente artigianale; pertanto differenze superficiali, di tono, di calibro e imperfezioni di forma sono da considerarsi proprie del materiale e non difetti.

ISTRUZIONI DI POSA

1. posare il materiale utilizzando collante per gres porcellanato;
2. consigliamo di posare i pezzi avvicinandoli e distanziandoli in modo che risultino armonici e che creino automaticamente la fuga ideale;
3. caricare di collante non solo la superficie da pavimentare/rivestire ma anche il singolo pezzo per compensare le differenze di planarità che si potrebbero riscontrare in un prodotto trafilato;
4. stuccare le fughe e lisciarle con una spugna;
5. effettuare la pulizia finale fino a rimuovere gli eccessi di stucco ancora freschi;

Geomat is an extruded and handmade product; therefore any surface difference or any diversity in shade, caliber and imperfection of shape should be considered as peculiar of the product instead of defects.

LAYING INSTRUCTIONS

1. lay the material using a glue for porcelain ceramic tiles;
2. we recommend laying the pieces by bringing them closer and spacing them so that they are harmonious and automatically create the ideal joint;
3. load the adhesive not only on the floor/wall but also on the single piece to compensate different thickness of a drawn product;
4. level the joints using a sponge;
5. make the final cleaning with a sponge until all residual grout which is still wet has been removed.

Caratteristiche/Features

La serie "Briollette" è prodotta in gres smaltato e appartiene al Gruppo BIIa (norma UNI EN 14411) della normativa europea vigente. Inoltre le piastrelle rispondono ai requisiti imposti dal marchio CE.

"Briollette" collection is made of glazed single-fired and belongs to the BIIa group (Rule EN 14411). Moreover these tiles fulfil the necessary qualifications requested by the CE brand.

Procedura per la posa/Procedure for the laying

Al fine di prevenire qualunque tipo di problema connesso alla natura dello smalto utilizzato per ottenere la caratteristica finitura "craquelé", la collezione Briollette deve essere trattata come descritto qui di seguito:

- 1 . posare le piastrelle;
- 2 . utilizzare esclusivamente un sigillante cementizio bianco;
- 3 . pulire accuratamente le piastrelle con un prodotto non acido (ad esempio Fila Cleaner);
- 4 . una volta che le piastrelle sono pulite ed asciutte stendere su di esse uno strato uniforme di prodotto protettivo (ad esempio Fila MP90).

In order to avoid any problem connected with the nature of the glaze used to obtain the typical "craquelé" finish, Briollette collection must be treated as follows:

- 1 . lay down the tiles;
- 2 . apply only white cementitious grout;
- 3 . clean well the tiles with a non-acid product (such as Fila Cleaner);
- 4 . once tiles are clean and dry lay an uniform coat of protector (such as Fila MP90).

Caratteristiche/Features

La serie "Kraklé" è prodotta in gres smaltato e appartiene al Gruppo Billa (norma UNI EN 14411) della normativa europea vigente.

Inoltre le piastrelle rispondono ai requisiti imposti dal marchio CE.

"Kraklé" collection is made of glazed single-fired and belongs to the Billa group (Rule EN 14411). Moreover these tiles fulfil the necessary qualifications requested by the CE brand.

Procedura per la posa/Procedure for the laying

Al fine di prevenire qualunque tipo di problema connesso alla natura dello smalto utilizzato per ottenere la caratteristica finitura "craquelé", la collezione Kraklé deve essere trattata come descritto qui di seguito:

- 1 . posare le piastrelle;
- 2 . utilizzare esclusivamente un sigillante cementizio bianco;
- 3 . pulire accuratamente le piastrelle con un prodotto non acido (ad esempio Fila Cleaner);
- 4 . una volta che le piastrelle sono pulite ed asciutte stendere su di esse uno strato uniforme di prodotto protettivo (ad esempio Fila MP90).

In order to avoid any problem connected with the nature of the glaze used to obtain the typical "craquelé" finish, Kraklé collection must be treated as follows:

- 1 . lay down the tiles;
- 2 . apply only white cementitious grout;
- 3 . clean well the tiles with a non-acid product (such as Fila Cleaner);
- 4 . once tiles are clean and dry lay an uniform coat of protector (such as Fila MP90).

Caratteristiche/Features

La serie "Provenzale" è prodotta in gres smaltato e appartiene al Gruppo BIIa (norma UNI EN 14411) della normativa europea vigente. Inoltre le piastrelle rispondono ai requisiti imposti dal marchio CE.

"Provenzale" collection is made of glazed single-fired and belongs to the BIIa group (Rule EN 14411). Moreover these tiles fulfil the necessary qualifications requested by the CE brand.

Note generali/General note

I materiali lucidi possono essere soggetti a leggere rigature ed opacizzazioni che, non compromettendo la funzionalità delle piastrelle, non vengono riconosciute quali difetti del prodotto.

È opportuno che, dopo la posa in opera, le piastrelle vengano protette fino all'ultimazione di tutti i successivi lavori di cantiere (vedi idraulici, elettricisti, imbianchini, falegnami, etc.) onde evitare che la presenza di detriti produca danni allo smalto. Le piastrelle smaltate non vanno mai trattate con prodotti a base acida. Per la pulizia e manutenzione è sufficiente lavare con acqua.

Glossy materials may be subject to slight scratching and opaque patches which do not affect the functioning of the tile and should not be considered defects.

Following installation, tiles should be protected until all subsequent work is completed on the site (by plumbers, electricians, painters, carpenters, etc.) in order to prevent the presence of detritus from damaging the tile enamel. Enamelled tiles should never be treated with acidic cleaning products; simply wash them with water.
